IMPORT TRADE CONTROL

New Delhi, the 30th December 1953

SUBJECT:—*Import Licensing Policy for January—June 1954 for newcomers.*

No. 159-ITC(PN)/53.—The following decisions of the Government of India regarding the issue of licences to newcomers for the import of certain articles for the licensing period January-June, 1954, are published for general information:—

2. The list of items for which licences will be given to newcomers is shown in the list attached to this Public Notice.

3. Persons or firms who have been dealing in the internal trade of the particular commodity for a minimum period of one year ending either 31st March, 1953, or 31st December 1953, and who are not eligible to qualify as established importers or actual users can submit applications for newcomer licences.

4. Established importers who do not wish to claim their quota as such may apply as newcomers. Such firms should furnish in addition to the evidence of their past imports, evidence of their turnover giving reasons why a licence as an established importer has not been claimed.

5. The applications should be submitted in the prescribed form together with a certificate from a Chartered Accountant showing that the applicant has been dealing in the internal trade of the country in respect of the particular item applied for and certifying the turnover of the applicant in respect of that item during the year ending either 31st March, 1953, or 31st December, 1953. The application form as well as the Auditor's Certificate attached thereto given in the "Hand-book" should be deemed to have been amended accordingly.

In the past, documentary evidence was required to be furnished in support of purchases of the goods concerned from importers or wholesalers. In future, it will not be necessary for applicants to send purchase vouchers, as they did in the past. Instead, a statement of each purchase transaction, separately for each of the commodities applied for, duly certified by the Chartered Accountant will be required, and this should form an attachment to the Auditor's main certificate. The statement should give particulars of:

- (a) Date of transaction;
- (b) Value; and
- (c) Firm from which the purchase was made.

6. The minimum turnover which will qualify a newcomer for being considered for the grant of an import licence has been given in column 5 of the attached list. This condition of minimum turnover will apply only to firms having branches or headquarters at the ports of Bombay, Calcutta and Madras. In the case of firms with headquarters at other places and with no branches at the ports of Bombay, Calcutta and Madras, applications for import licences will be considered if the turnover does not fall below one-fourth of the minimum given in the attached list.

7. Applicants who have received licences as newcomers for the licensing period July—December, 1953, need not submit fresh evidence to prove that they have been engaged in the internal trade of the commodity. It will be sufficient if they submit along with their applications the exchange control copy of the licence obtained by them for the period July—December, 1953. Applicants in this category will be given repeat licences for the same values as the licences granted during July—December, 1953.

8. Applications from newcomers complete in all respects should reach the appropriate licensing authority on or before the 28th February, 1954. Incomplete applications or applications received after that date will not be considered.

9. The minimum value limit of an import licence to be granted to newcomers will be the same as prescribed in the case of established importers. The maximum value of a licence to be issued to a newcomer will not ordinarily exceed the amount shown in the attached list against each item.

10. Government does not bind itself to grant newcomer licences to each applicant.

SUBJECT:—*Import policy for January—June 1954.*

No. 160-ITC(PN)/53.—Having regard to the comparative stability that has been achieved in the foreign exchange position and the export and import trade of the country and the views expressed by the members of the Import Advisory Council at the meeting held on 28th November 1953, it has been decided that the procedure and policy followed in the licensing period July—December, 1953, for the regulation of the import trade of the country will, subject to the modifications contained in the accompanying lists of amendments, continue to apply to the licensing period January—June 1954.

2. The procedural changes have been set out in italics in List I as amendments to Section I of the Red Book published in July—December 1953. Apart from verbal alterations and substitutions, as for example consequential changes in the description of licensing periods, only a few amendments of substance have been made. The jurisdiction of licensing authorities has had to be revised in consequence of the creation of the office of the Deputy Chief Controller of Imports, Central Licensing Area, New Delhi. Provision has also been made requiring importers to attach quota certificates held by them to applications for 'M' items also: this will help licensing authorities to distinguish the applications based on licences for the previous licensing period or/and quota certificates from those seeking revision or establishment of quotas as a preliminary to grant of licences. The provisions relating to the establishment of fresh quotas or revision of old quotas have been liberalised and the rules regarding the grant of minimum value licences have been revised. In the case of actual users the procedure remains substantially unaltered, but the number of certifying authorities has been amplified and a few changes have been made in the list of items licensable to actual users. The licensing policy for newcomers has been streamlined and a new Public Notice has been substituted for Annexure 'F' in the Red Book. Provision has also been made to grant facilities to persons engaged in some special lines, as for example, tailoring establishments, hair dressing saloons, dentists, opticians and Agarbatti manufacturers to import directly their specialised requirements: a new Public Notice has been added as Annexure 'G'.

3. The only change in the scheme for licensing of Capital Goods and Machine Tools set out in Section II of the Red Book is that applications for Capital Goods for jute mill machinery and stores will, with effect from 1st January, 1954, have to be made to the J.C.C.I. Calcutta. The only other modification is a minor one. Both these amendments are set out in List II attached to this Notice.

4. The changes in the import policy have been set out in List III, which also contains the list of amendments to the Appendices. All the items in respect of which modifications have been made have been entered in List III in the order in which they appear in the Red Book published for July—December 1953. The revised entries have been shown in italics.

LIST No. I

AMENDMENTS TO SECTION I

1. Forms of application (para. 2 page 1):

For the sentence:

"These forms of application can be obtained from the Government of India Photo Litho Press, New Delhi."

please substitute the following:—

"These forms of application can be obtained from the licensing authorities at the ports including the Deputy Chief Controller of Imports, Central Licensing Area, New Delhi, as also from the authorised agents of Government publications."

2. Please insert the following as para. 2-A.

"2-A. In cases where establishment of fresh quotas or revision of old quota certificates is found necessary, established importers are requested to furnish a statement of previous imports in the form appended to the application. In cases in which licences are applied for on the basis of licences held for the previous licensing period and/or validly held quota certificate, importers are requested to append to their application a statement of documents furnished, giving full particulars of the licence or/and the quota certificate, including the number, date, description of goods, currency area and value, and in the case of quota certificate the basic year."

Applicants applying for import of Capital Goods and Heavy Electrical Plant are requested to state against clauses 11(b) and 11(c) of the application particulars of the licence obtained by them under the Industries (Development Regulations) Act, 1951. If no such licence has been obtained, particulars of the application made for it should be stated".

3. Income tax verification (para. 4, page 1):

For the words "June 1953", please substitute "December 1953".

The revised jurisdiction for the grant of incometax verification or exemption numbers has been set out in Public Notice No. 152-ITC(PN)/53, dated the 28th November 1953.

4. Licensing authorities (para. 6, page 2):

In view of the creation of a new Regional Office, namely, the Deputy Chief Controller of Imports, Central Licensing Area, New Delhi, please substitute the following for para. 6:—

"Licensing Authorities.—Apart from the Chief Controller of Imports, there are five Regional Authorities. They are:—

- (i) The Joint Chief Controller of Imports and Exports, 4 Esplanade East, Calcutta, with jurisdiction over Assam, Bihar, Orissa, West Bengal, Cooh-Behar,*

Manipur, Tripura, Andaman and Nicobar Islands and U.P., comprising the districts of Jaunpur, Mirzapur, Benares, Ghazipur, Azamgarh, Gorakhpur, Ballia and Deoria.

ESTABLISHED IMPORTERS

5. Please make the following verbal changes in para. 10:—

- (i) For the words "January—June 1953" appearing in para. 10(a), read "*July—December 1953*".
- (ii) After the words "J.C.C.I., Calcutta", appearing in para. 10(c), add the following words:—
"*Or the Licensing Authority concerned.*"
- (iii) For the words "July—December 1953" appearing in para. 10(d), substitute "*January—June 1954*".

6. In order to prevent fraud, and also as a help to established importers, who are, for some good reason, unable to furnish the exchange control copy of the licence, it has been decided to require importers to furnish quota certificates along with applications for 'M' items also. The following is the revised paragraph, to be substituted for para. 11 published at pages 3-4 of the Red Book:—

"11. In regard to (a) of para. 10 above, the letter 'M' has been entered in column 4 of Appendix 'A' against the items for which licences will be issued on the basis of the

import licence for the previous half year. The value of the Import Licences for January—June 1954 period will bear the same proportion to the licence issued in respect of the July—December 1953 period as the policy of the first half of 1954 bears to that of the second half of 1953. Established importers should submit along with their applications the exchange control copy of the licence obtained by them for the period July—December 1953, as also the relevant quota certificate. If the established importer is unable to furnish the exchange control copy of the licence for the previous half year, reasons for its non-production should be stated in the application. No other evidence of past imports will be required. The quota certificate will be duly scrutinised and returned to the applicant along with the licence or if this is not possible, a little later. In case the quota certificate furnished by the applicant is not in the prescribed form, it will be re-issued on security form."

7. The following verbal changes may be made in paragraphs 12 and 13:—

- (i) For the words "July—December 1953" appearing in line 9 of para. 12, substitute "*January—June 1954*".
- (ii) After the words "J.C.C.I. Calcutta" appearing in para. 13, please insert the following:—

"Or the Licensing Authority concerned."

8. In order to remove the ambiguity and uncertainty in regard to facilities for revision or establishment of quotas, the second and third sentences appearing in para. 15 (page 4) have been revised. These sentences should be substituted by the following:—

"Applications for establishment of fresh quotas will be entertained only in cases in which the licensing authority is satisfied that the applicant has been unable, for some good reason, to prove his basic imports and to establish his quota in the previous licensing periods. The need for establishing fresh quotas will, for instance, arise in cases in which the item in question has been allotted a separate serial number, or the system of quota licensing has been introduced for the first time, or the applicant was unable, for some good reason, (e.g. litigation or financial difficulties), to apply for facilities to participate in the import trade."

9. The following verbal changes may be made in paragraphs 15, 18, 19 and 20:—

- (i) For the words "July—December 1953" appearing in the last sentence of para. 15, substitute "*January—June 1954*".
- (ii) For the words "July—December 1953" appearing in the last sentence of para. 18, substitute "*January—June 1954*".
- (iii) For the words "July—December 1953" appearing in the penultimate sentence of para. 19, substitute "*January—June 1954*".

- (iv) For the words "January—June 1953" appearing in the fourth line of para. 20, read "*July—December 1953*".
- (v) After the words "Joint Chief Controller of Imports, Calcutta" and "J.C.C.I. Calcutta", appearing in para. 20, add the words "*or the Licensing Authority concerned*" in the respective places.
- (vi) For the words "July—December 1953" appearing in the last sentence of para. 20, the words "*January—June 1954*" may be substituted.

10. The following may be inserted as para. 21-A at page 8:—

"21-A. *The procedure set out in Commerce and Industry Ministry's Public Notice No. 127-ITC(PN)/53 dated 12th September, 1953, for the grant of soft currency licences on the higher quota applicable to soft currency area on the basis of past imports made from Dollar Area will apply to applications for the January—June 1954 period. These applications will be considered by the licensing authorities on merits.*"

11. Minimum value of quota licences (paras. 22 and 23, page 8):—

In view of the suggestions made at the last meeting of the Import Advisory Council and as a help to small size importers, it has been decided to revise paragraphs 22 and 23. The following revised paragraphs may be substituted for the old paragraphs:—

"22. *Licences to established importers will not be given if the value of the licence to which they are entitled according to the quota percentage fixed for licensing falls below the minimum indicated in the following Table:—*

Quota percentage of the article as given in Appendix 'A'	The limit upto which no quota will be granted if quota when calculated is less than	Minimum value of licences

23. *The letter "N.L." has been entered in the remarks column of Appendix 'A' against the items to which the minimum value limits stated above do not apply. In the case of such items, licences for the minimum values indicated in column 3 will be granted even if the exact amount of quota admissible to the applicant falls below the minimum stated in column 2".*

12. In para. 24, for the words "July—December 1953", substitute "*January—June 1954*".

13. The list of certifying authorities for actual users has been amplified. The following entries may be added at the bottom of para. 28 (page 9)—
